Experience

River Edge Analytics - Software Development Intern

Jan 2026 – June 2026

Ahmedabad, Gujarat

- Accomplished a **90%** reduction in data ingestion time as measured by database processing performance by implementing batch insertion strategies for large-scale datasets
- Reduced the manual efforts of accounting by **95%** of time by implementing **OCR** based bank transaction extraction.
- Reduced annual costs from **\$200 to near-zero** by developing and deploying an in-house application that replaced a third-party solution.
- Improved data accessibility for remote employees by integrating **AWS S3** as a secure intermediary layer.
- Developed backend services in **FastAPI**, **Python** and integrated with **React Js**, **TypeScript** for scalable web applications

Achievements

- Globally **Top 17%** coders (5737 out of 33040) in LeetCode Weekly Contest 467
- Globally **Top 25%** coders (6,981 out of 27,973) in LeetCode Weekly Contest 473
- Globally **Top 26%** coders (8,527 out of 31,701) in LeetCode Weekly Contest 440
- Highest Rating **1492** on LeetCode.
- Rank **6th (Top 0.5 %)** on GeeksforGeeks among college peers.

Education

Lok Jagruti University | Master's of Computer Applications

July 2024 – June 2026

- CGPA: 8.88 /10.0

Gujarat University | Bachelor's of Computer Applications

July 2021 - June 2024

- CGPA: 7.97 /10.0 ([Graduation Marksheet](#))

Skills

Programming Language: Python, Java, C++

Web Technologies: ReactJs, React Native, Fast API, Node.js, ExpressJs, Streamlit

Database: MongoDB, MySQL, SQLite

Coursework: Data Structures and Algorithms, Machine Learning, Database Management System, Operating System, Object Oriented Programming

Projects

Flipkart AI Assistant | [CODE](#) | [DEMO](#)

June 2025

- Design an **AI** Application for product discovery, comparison, and price-based filtering reduces **users time**
- Developed an LLM based **RAG** system with **Gemini 1.5** and **LangChain** to translate user queries into **MongoDB** queries
- Designed a dynamic UI in **Streamlit**

RAG on PDF | [CODE](#) | [DEMO](#)

May 2025

- Developed an AI-powered PDF chatbot using **Gemini 1.5** and **LlamaIndex**, enabling users to perform intelligent document exploration and contextual information retrieval through natural conversation
- Integrated Gemini Embeddings with **VectorStoreIndex** to deliver semantic search with up to **81%** improved accuracy
- Reduced average document reading time for users by over **70%** by summarizing and filtering only relevant sections dynamically.

Data Secure Tool | [CODE](#)

February 2025

- Desing & Developed an encrypt and decrypt Software for files
- Implemented efficient I/O in **C++** for both text and binary files to preserve data integrity during transformation
- Applied **object oriented programming** concepts and used **smart pointers** for efficient memory management
- Technologies Used: C++, Queue, Pointers, Class, Objects
